

Information about Potential Sponsored Partners

Resources Concerning Potential Sponsored Partners

The U.K. Access Management Federation has an extensive list of Shibboleth-protected resources that are available to U.K. federation members. Since these vendors are already Shib-enabled, they may be more likely to join InCommon and work with you as a Sponsored Partner.

<http://www.ukfederation.org.uk/content/Documents/AvailableServices>

Also in the U.K., JISC maintains a list of publishers currently discussing federated access management, and their known status. This may be a resource to leverage for federating with InCommon.

The German federation lists all of its members, including vendors (note: this is in German)

<http://www.dfn.de/en/enhome/organisation/members/>

SWITCH, the Swiss federation, lists its partners here:

<http://www.switch.ch/aai/participants/partners.html>

SURFnet, the federation in the Netherlands, lists its partners here:
