

Technology Driven Scenario Score Sheet

Roll #	Roll Value	+ Expert Points	+/- Impacts	= How Did It Go Score	Outcome Summary
1 Technology			0		
2 Budget					
3 Team					
4 Implement					
5 Migration					

Add up your score: Total up the Roll Value column above (5 to 30 points). Add your unused Expert Points (0 to 5 points). Add your Overall Success Impacts (-1 to +2 points). This is your Overall Success Score.

Technology	Die Total	+ Expert Points	+/- Impacts	= Overall Success	Good or bad? Why?
Overall Success					

Instructions: Roll the die and record the value in the first column. Decide if you want to use 1 or more of your 5 Expert Points to help the score. Note, you only get 5 Expert Points total for all steps in the project. Add any Impact Points from previous rolls to the total to get the “How Did It Go Score”. Use the “How Did It Go Score” to look up the “How Did It Go” Scenario. Record the Impacts for the other rolls for your “How Did It Go” score. (e.g. If the Impact says, “-1 to User Migration”, put a -1 in the Migration Impact box below).

Architecture Driven Scenario Score Sheet

Roll #	Roll Value	+ Expert Points	+/- Impacts	= How Did It Go Score	Outcome Summary
1 Strategy			0		
2 Impact					
3 Design					
4 Implement					
5 Migration					

Add up your score: Total up the Roll Value column above (5 to 30 points). Add your unused Expert Points (0 to 5 points). Add your Overall Success Impacts (-1 to +2 points). This is your Overall Success Score.
