InCommon® CERTIFICATES

The Latest from the List – Nov./Dec. 2022

Need the Current Status of the System or Upcoming Upgrades?

Visit the Sectigo status page:
https://sectigo.status.io/

Be sure to click the "SUBSCRIBE" button at the top of the page (on the right) to sign up to receive operational information about upcoming outages and changes to Certificate Manager.

Here is the November/December installment of the new monthly communication from the InCommon Certificate Service. Each month we will highlight a frequently asked question from the list (or share other important updates) along with its corresponding responses as well as added notes from our team when needed. Please let us know if there is a question that you would like to see addressed in a future installment of The Latest from the List. In the meantime, keep the great dialogue going on the list!
—Paul Caskey, Program Manager,
InCommon Certificate Service

SPECIAL EVENT
Meet Nick France, CTO of SSL, Sectigo at TechEX22
We're hosting a birds of a feather for the InCommon Certificate Service on Tuesdays, December 7, from 7–8 a.m. MT, in Denver at TechEX (Sheraton Denver Downtown Hotel, 1500 Court Place; Room: Director's Row I). If you're in town, please join us! Bring your questions and take advantage of this opportunity to get them addressed by Sectigo leadership.

As CTO of SSL, Nick France is responsible for the technology and practices necessary to operate Sectigo's global Certificate Authority (CA) and related services. Nick previously served for more than 15 years as Sectigo's Technical Security Officer. He is based in Sectigo's UK office.

THIS MONTH'S Q&A
Q: Where can you find information about implementing ACME integrations?

A: The various ACME integration guides are on Sectigo's website under documents in a collapsing accordion view with the other Sectigo Certificate Manager Guides.

To obtain and download the agent .tgz files associated with the various integration options, you need to open a support ticket with Sectigo.
