

NET+ BPLAC Meeting Summary

March 13, 2024

Attendees: Emily Perry, Loren Malm, Aria Dogvin, Bobby Clark, Emma Levett, Lester Greenman, Heather Nelson, John Krienke, Sean O'Brien, Lucy Joyce, Sue Gavazzi

- Members approved the [Feb 2024 Summary](#) notes.
- Sean provided an overview of topics discussed at [Leadership Exchange](#), an invitation-only event for CIOs at [Community Exchange](#). Sean and Emily participated in a panel discussion on the evolving role of IT Vendor Management. Additional content at the event included Identity & Access Management (IAM) contracting and considerable focus on AI. Members shared activities addressing AI at their institutions including: training for those in procurement roles, policies and guidelines, restricted use, and template contract language.
- Bobby continued the discussion from February concerning professional services contracts. Members see value in mapping providers to NET+ offerings and discussed the benefits of contracted service providers.
