

## **AGENDA**

Health Sciences Advisory Committee  
Internet2 Fall Member Meeting, Raleigh, NC  
Raleigh Convention Center  
Monday, October 3, 10:30 am – 1:00 pm ET

A phone bridge will be available for remote participants.

### **10:30 - 10:40 Introductions and review of meeting format**

This meeting will be divided into three sequential sessions. Each session will begin with a short Internet2 presentation of services planned for a specific health community. The entire group (including community members on the phone) will then critique the plan and try to answer the following questions:

- Do the proposed services provide significant value to the community?
- Is there a revenue model to sustain the provision of these services?
- Is there too much competition to provide these services?
- Are there insurmountable obstacles to the plan?

### **10:40 - 11:25 Collaboration Services for Biomedical Researchers**

Community: Biomedical researchers in cancer centers, NCI, CDC, WHO, Academic Health Centers, Medical Schools, and the Global Virus Network (GVN).

Services: Support for international collaboration and virtual organizations including video conferencing services, bulk data transport, and cloud services.

### **11:25 - 11:35 Break**

### **11:35 - 12:20 Cloud Services for Rural Health Care Providers**

Community: Rural health care networks, BTOP networks, U.S. UCAN participants.

Services: Cloud data backup, SaaS EHRs

### **12:20 - 12:30 Pick up box lunch and return to room**

### **12:30 - 1:00 HIE Services for Health Care Providers**

Community: Statewide HIEs, Rural health care networks, BTOP networks, Direct Project Community, NwHIN Community, Care Connectivity Consortium

Services: HIE-to-HIE connectivity, HISP services
