Good morning, gentlemen,

I'm pleased to present the below slate to Steering of members for next year's TAC.

We had a couple of mid-term resignations and a couple of members whose terms ended and chose not to seek reelection. This took us down to just five continuing members. So, we decided to bring in a bunch of new members, nearly maxing out our permitted size. I'm excited by both the skill sets of our new members and the fresh perspective that the new members will bring.
