

Withdrawal Requests Late 2013/Early 2014

HIGHER ED

1. South Suburban College

Reason: We were never able to implement the system

2. Gustavus Adolphus College

Reason: We just aren't seeing the benefit of this subscription

3. Naval Postgraduate School

Reason: It's my understanding that we are no longer participating so we no longer need the access

4. Liberty University

Reason: Library indicated that "they no longer use the InCommon Platform and no longer need the service".

5. University of South Hampton

Reason: no reply to queries

SPONSORED PARTNERS

6. Apple (withdrew last year. Finalized recently)

Reason: Little usage of iTunesU, no larger fed. Identity strategy.

7. IDEO

Reason: clients no longer require InCommon service

8. NG Web Solutions

Reason: A former client requested we join InCommon to support their Single Sign On process. Since ending that relationship, we have not seen any demand for InCommon from other clients.

9. Urgent Content

Reason: The social network / website we were working on is being shut down. So we no longer need the service. Had the project continued, we would have also kept InCommon's service.
