

APIs, Data Models and Fine-Grained Authorization

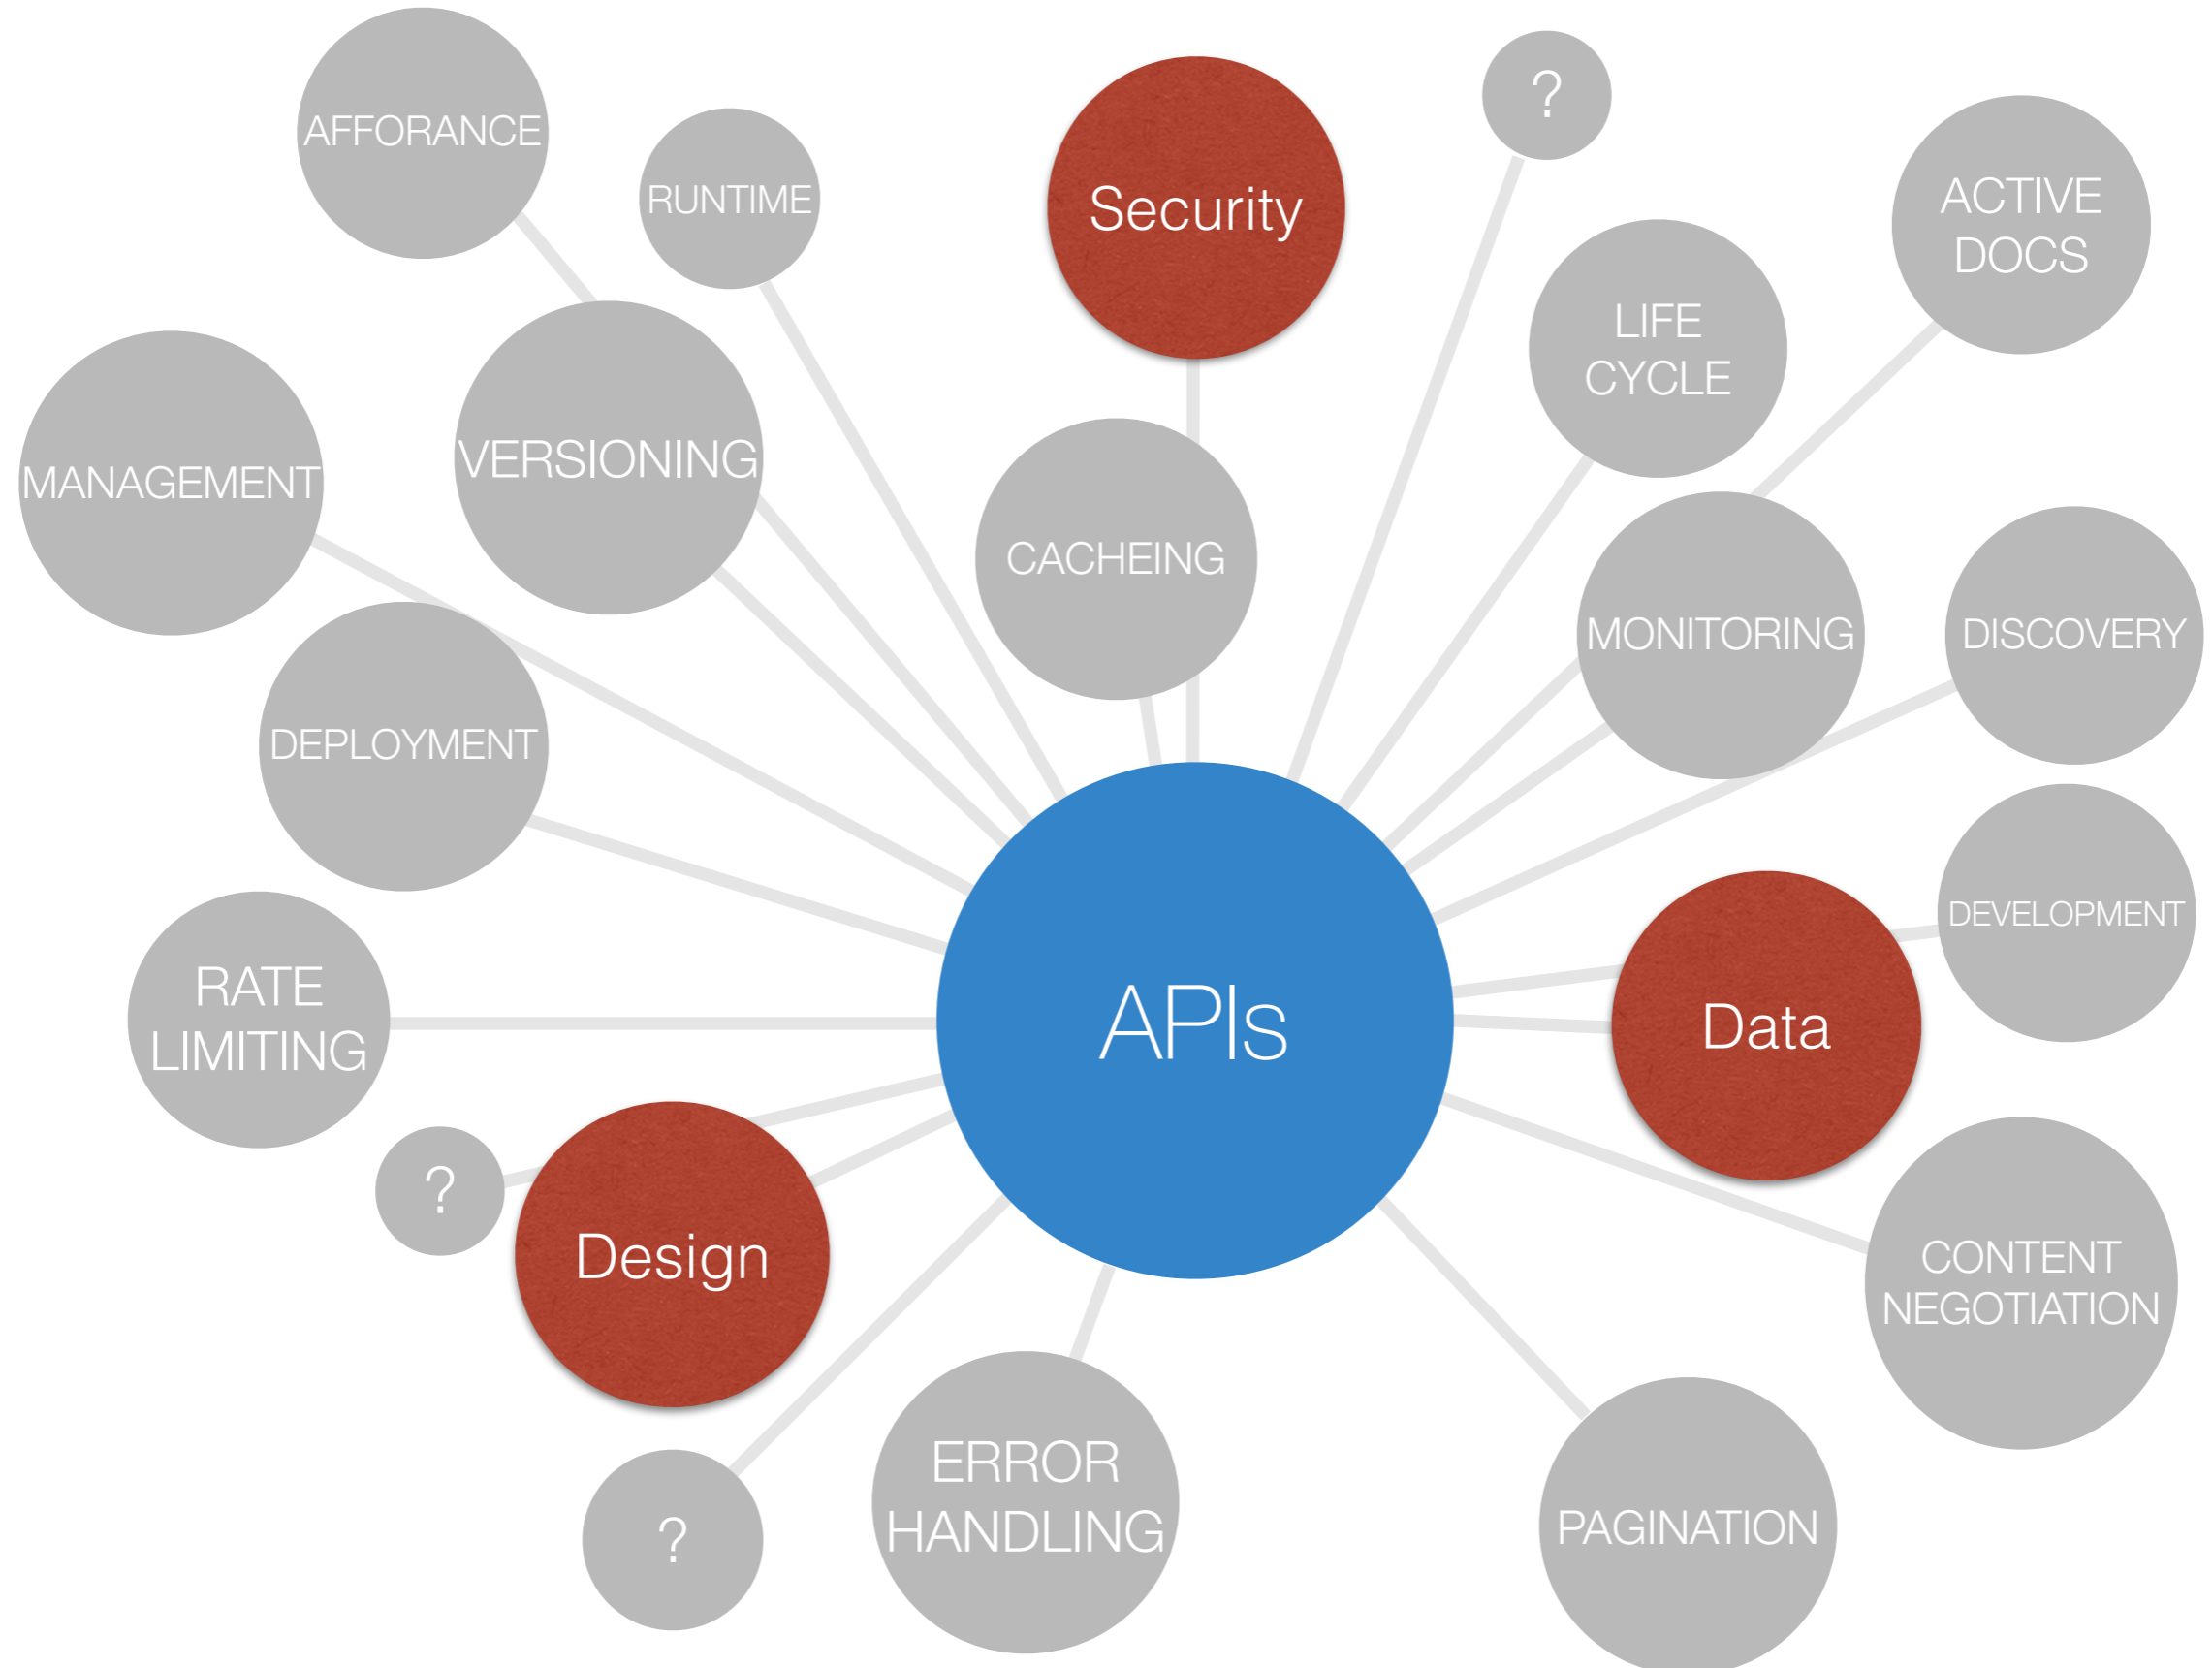

Enterprise Integration Service
Tamer Sakr
tamer.sakr@berkeley.edu

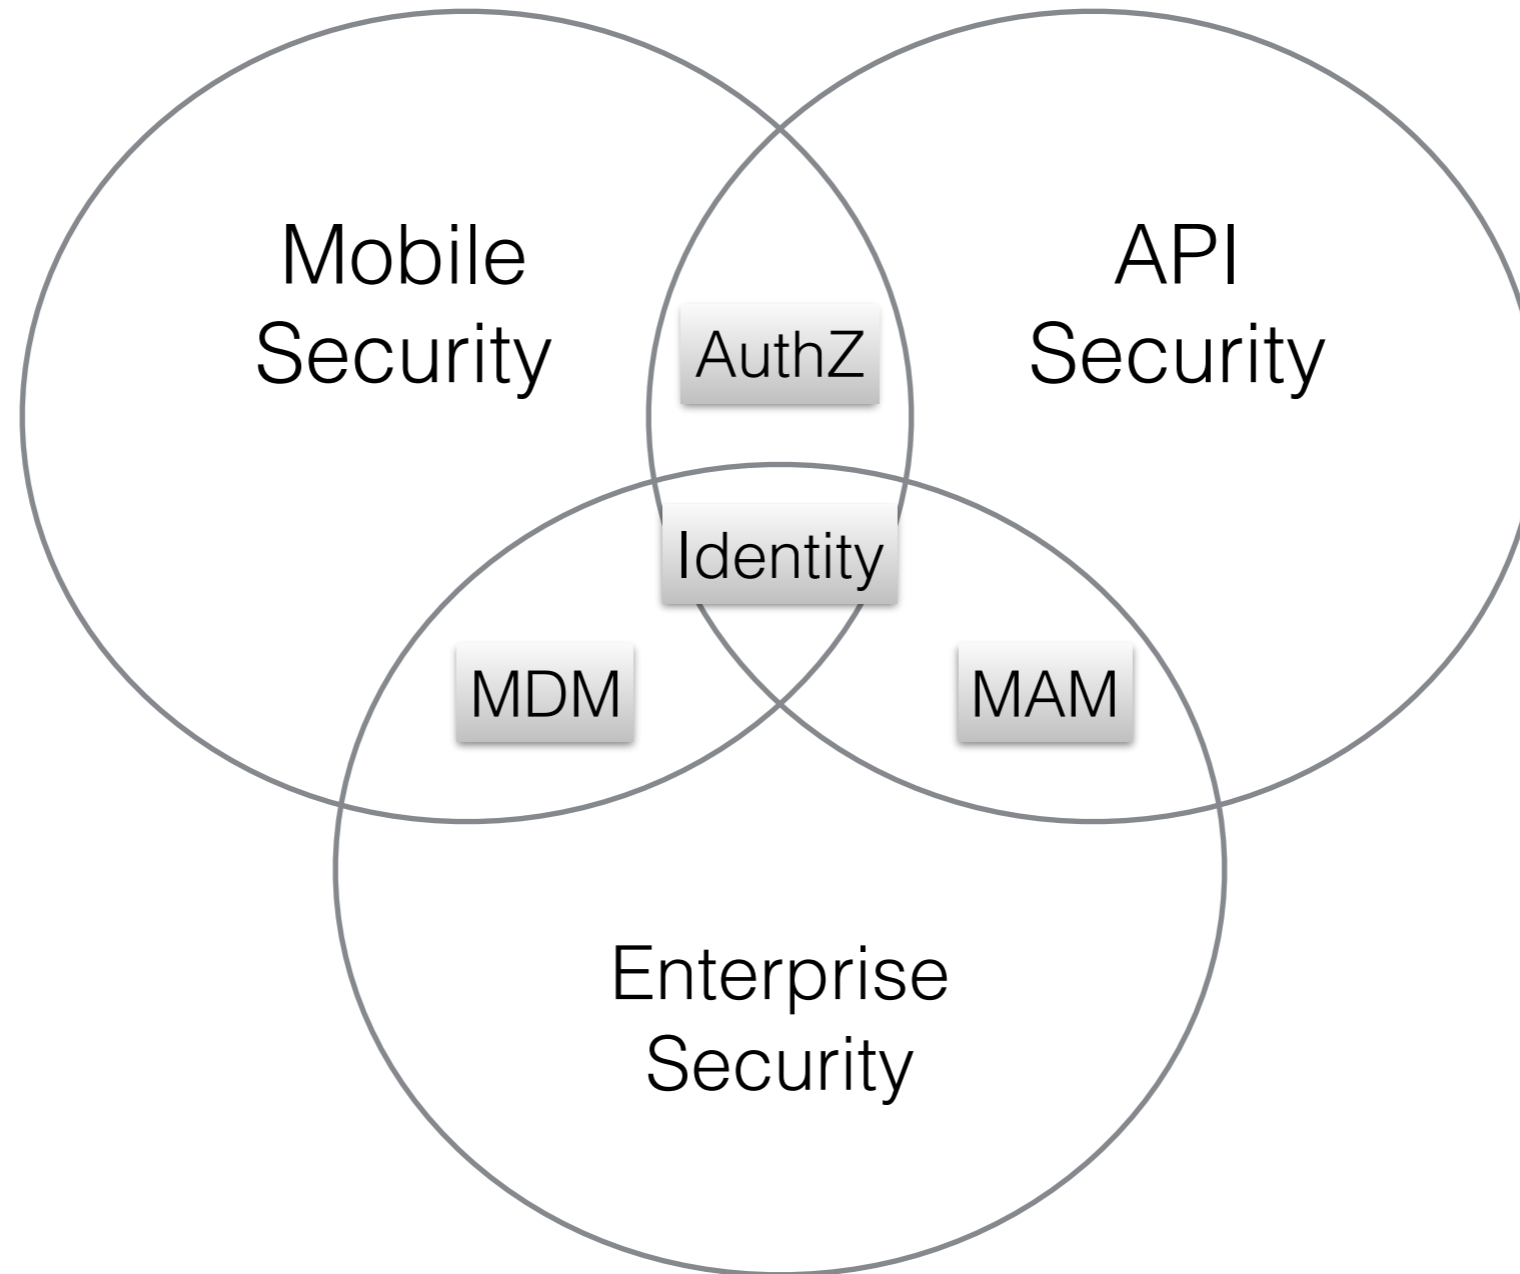

- Data
- Domain Models
- APIs
- Security
- What are we doing today? next steps?

Heterogeneous Applications
Multifaceted APIs

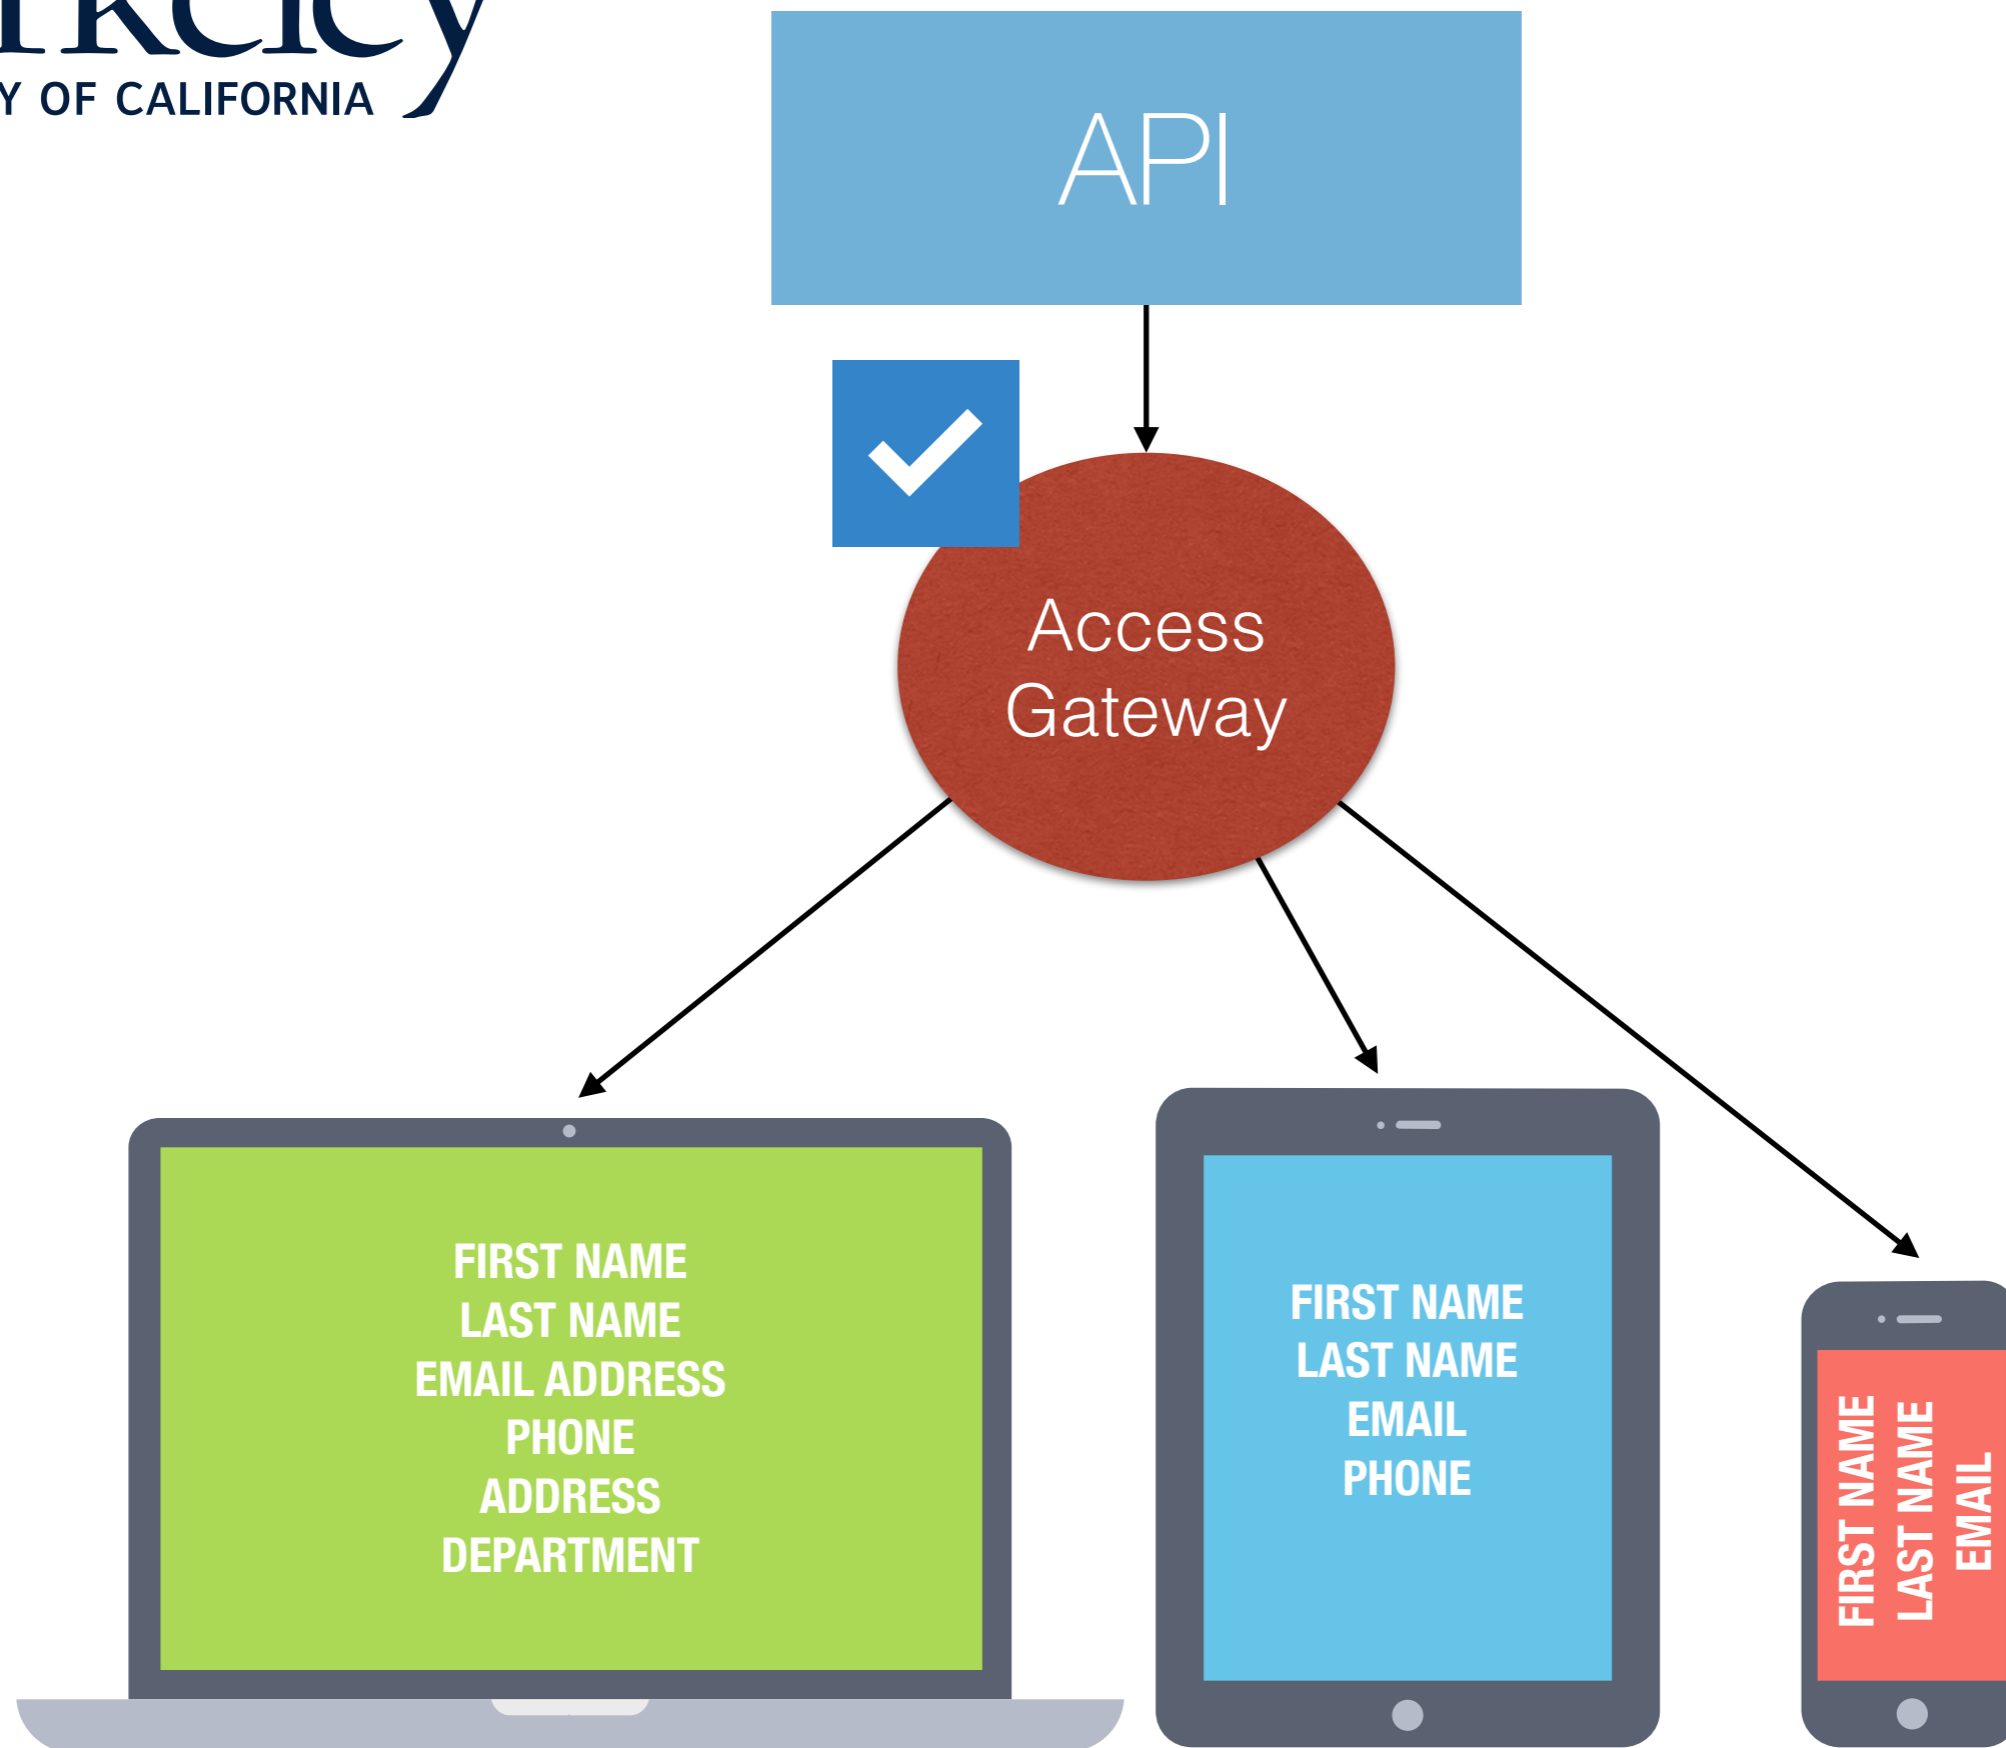

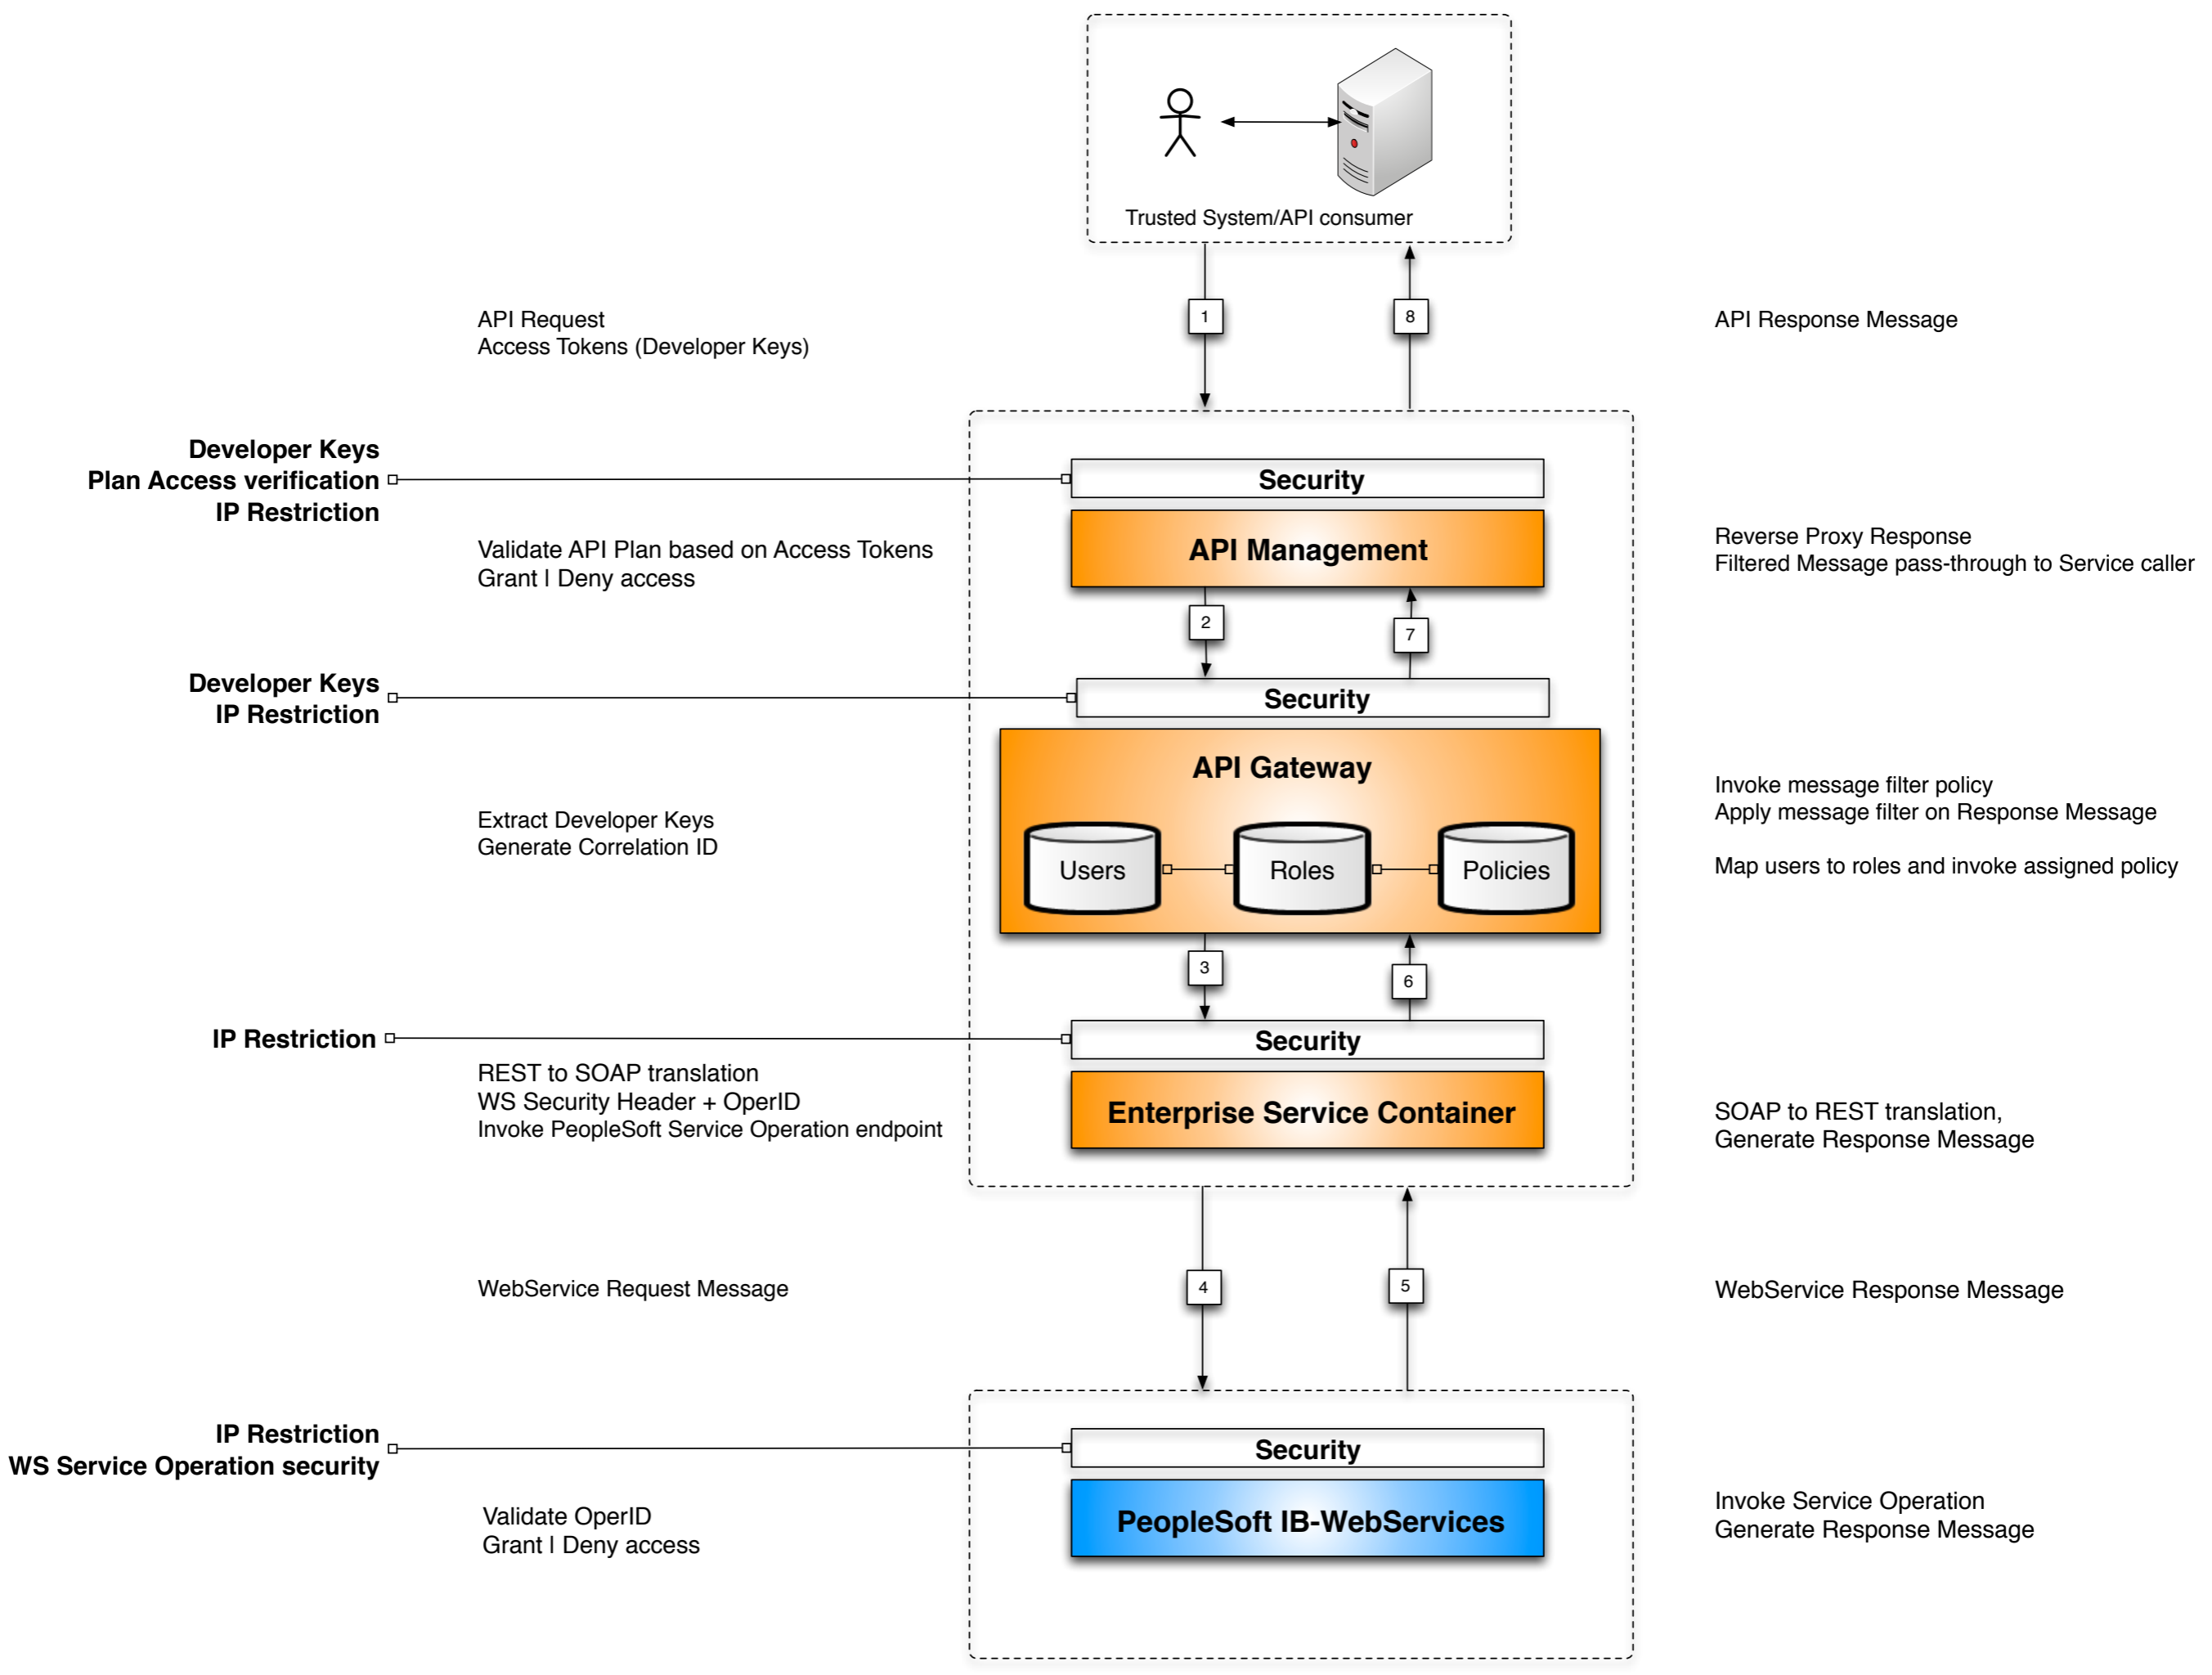

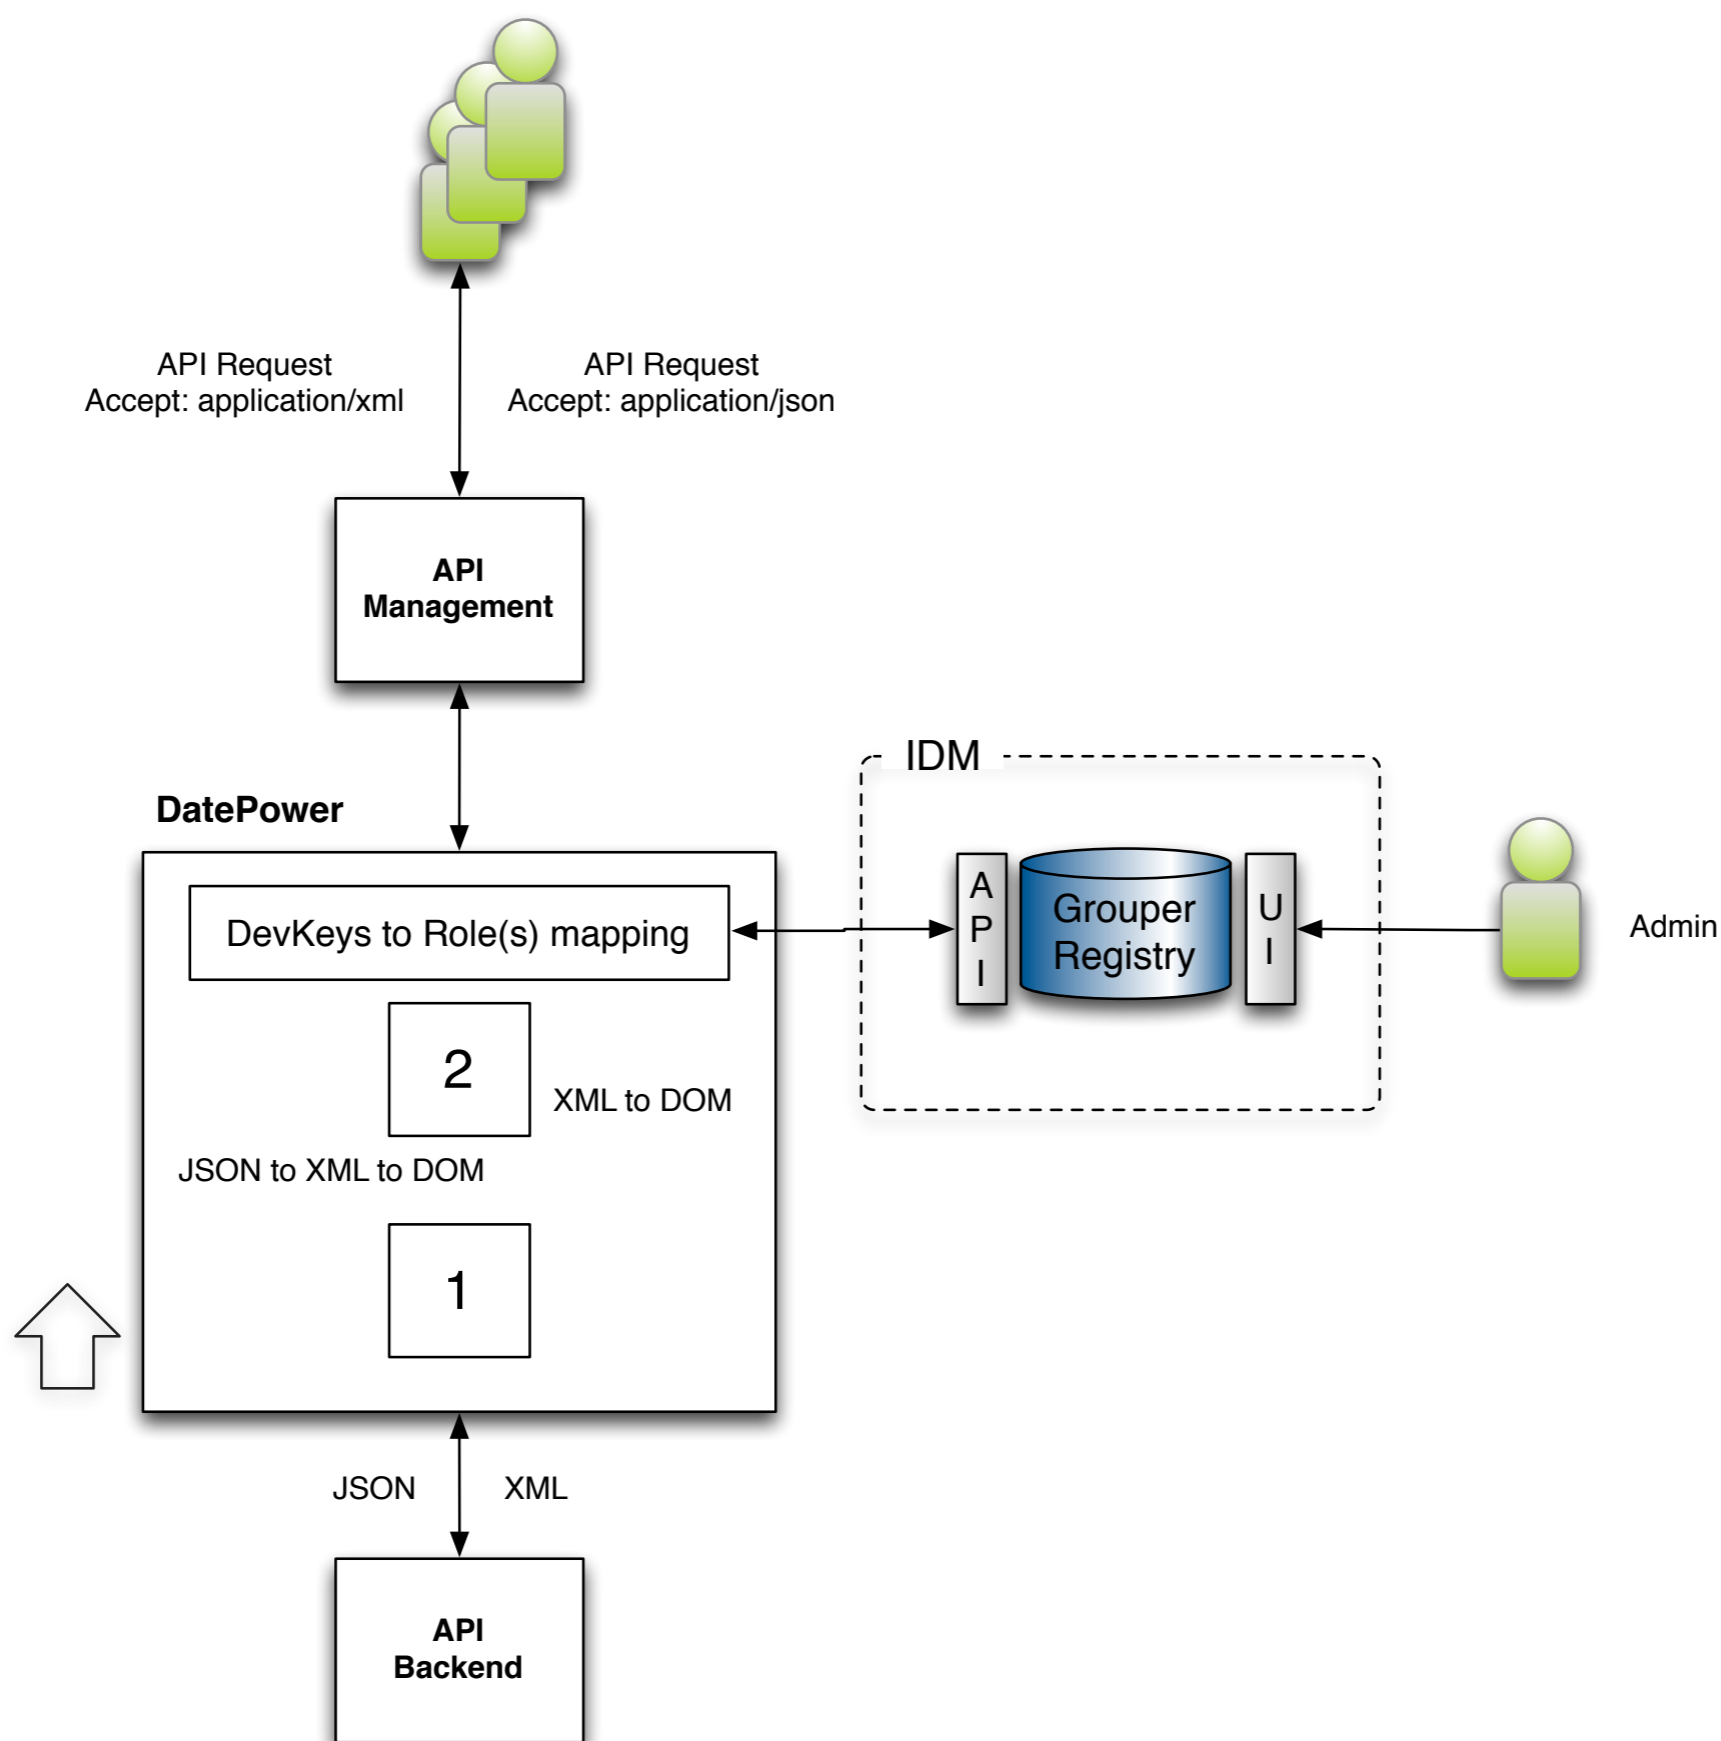

- 1** Response Rule - Gateway jScript determines which policy gets invoked based on Content-Type [XML | JSON]
- 2** Response Rule - Gateway jScript - if XML content, run XSLT transform, return redacted payload in XML
Response Rule - Gateway jScript - if JSON content, run jScript using recursive call on payload, return redacted payload in JSON
