MFA Interoperability Profile Working Group

- Kicked off August 2015
- Full working group met on Aug. 5
- Use cases subgroup met on Aug. 25 and Sept. 1 (see deliverable #1 below)
- Other subgroups planned during the life of the working group

see the wiki:

https://spaces.internet2.edu/display/MIPWG/MFA+Interoperability+Profile+Working+Group+Home

Working Group Deliverables
1. Assemble **use cases** that will motivate the deliverables of this working group
2. Develop short list of widely deployed MFA technologies in higher education that will be in scope for the profile
3. Define requirements for and draft MFA Interoperability Profile
4. Develop and recommend scope and plan for adoption
5. Present draft in session at Internet2 Technology Exchange in October 2015
6. Publish final profile by November 30, 2015

Other News

- The AAC will meet Face-to-Face at Duke on Sept. 17, 2015
  - On the AAC agenda: The assurance value proposition and landscape

- The **2015 Internet2 Technology Exchange** (Oct 4-7) in Cleveland will provide an opportunity for Assurance discussions.
  - Hope to propose a session at ACAMP related to the MFA Interop Profile Working Group
  - CAMP 201 Track has several sessions of relevance to today's discussion, including one on MFA and one on Shib v3 (both on Wed. Oct. 7)
  - See Technology Exchange program here https://meetings.internet2.edu/2015-technology-exchange/program/
