Identity Ecosystem

Systems of Record

- Student System
- HR
- Faculty Info System
- Applicants
- Alumns
- Guests
- External Users
- Group & Privilege Management
- Repository as SOR
- Consumer as SOR

Filtering/Routing/Integration Rule Engine

Two Modes:
- REST APIs
- Messages

Rules map the flow of individual data items coming from SORs to Repositories

Repositories

- Entity (Person) Registry
- Groups & Privilege Registry
- Detailed info about a person
- Credential Mgmt.
- Assurance Mgmt.
- Audit Log
- ODS/MDM
- Rules Repository

Provisioning/Rules Engine

Rules invoke provisioning actions on connected consumers

Consumers

- LDAP
- Kerberos
- Active Directory
- LMS
- Door Access System
- Repository as Consumer
- SOR as Consumer
