

Revised Front Page

Welcome to the COnanage wiki, a technical companion to the [COnanage Website](#). This is a space for COnanage users, developers, and application developers to find answers and coordinate efforts. For editing access to the wiki, see the [Internet2 Spaces Instructions](#).

Resources for Users

- [Click here to test drive COnanage](#). (If you are not a member of an Internet2 affiliate, contact Heather Flanagan (heatherf AT stanford DOT edu) for temporary access.)
- Download the [latest version of COnanage](#)
- [How to run COnanage](#)
- [License information](#)

Resources for Developers

Application Developers

- [How to integrate domesticated applications](#) *draft*
- [Integration standards](#) *draft*

COnanage Developers

- [COnanage manifesto](#)
- [COnanage product roadmap](#)
- [COnanage paths](#)
- [Rolling Issues Doc](#) (PDF)
- [JIRA BugTracker](#)
- [Archived proof-of-concept configuration files](#)
- [Collabmin video script](#)

- [Creating a COnanage VM](#)
- [Debian package analysis](#)

- [COnanage-TAC meeting minutes](#)
