

Grouper attestation global folders and groups with settings

Wiki Home	Grouper Release Announcements	Grouper Guides	Grouper Deployment Guide	Community Contributions	Internal Developer Resources
---------------------------	---	--------------------------------	--	---	--

To see all of the folders and groups that have settings (that you have access to see), go to Miscellaneous Attestation Attestation settings Folders and groups with settings, or if in the global attestation screen, click "Attestation actions Folders and groups with settings"

The screenshot shows the Grouper web interface. On the left is a sidebar with a dark blue header containing a '+ Create new group' button. Below this is a 'Quick links' section with a minus icon, listing 'My groups', 'My folders', 'My favorites', 'My services', 'My activity', 'Miscellaneous', 'Admin UI', and 'Lite UI'. A red arrow points from the 'Miscellaneous' link in this list to the 'Miscellaneous' page header on the right. Below the quick links is a 'Browse folders' section with a refresh icon, showing a tree structure with 'Root' and 'etc' folders. The main content area on the right has a dark blue header with 'Home > Miscellaneous'. Below this is a large 'Miscellaneous' title and the subtitle 'Functions across the repository'. A list of links follows: 'Inherited privileges', 'Subject API diagnostics', 'Instrumentation', 'Loader jobs', and 'Attestation'. A red arrow points from the 'Attestation' link to the main content area.

Groups that need attestation

Groups that have attestation assigned that you can READ or UPDATE with less than two weeks re

Attestation actions ▾

- Groups that need attestation
- Folders and groups with settings**
- Run attestation daemon
