Roadblocks	<ul style="list-style-type: none">• Resources spread thin
Streamlining SP Onboarding WG	
This Month	<ul style="list-style-type: none">• Complete. see final report here http://doi.org/10.26869/TI.98.1
Attributes for Collaboration and Federation WG	
	<ul style="list-style-type: none">• Complete. see final report here http://doi.org/10.26869/TI.101.1
Deployment Profile Working Group	
	<ul style="list-style-type: none">• Presented nearly completed work at TechEx in front of a much more crowded than expected room. Got some good additional community feedback• Finishing some final edits to our revised SAML2int• Plan to pass the revised SAML2int to Kantara soon for community review and ratification.• Recommended a work item to REFEDs to standardize logo requirements across federations for logos in metadata• Working on final report and then to share with InCommon TAC and Steering soon (targeted for community consultation in January 2019); report includes recommendations for follow-on work to create an R&E-specific deployment profile. https://sp.aces.at.internet2.edu/x/tw6MBw
