## 2018.11 - November

## **November Update: InCommon Working Groups**

Guide to Updates

OIDC-OAuth Deployment WG	
Last Month	<ul> <li>2018 Technology Exchange – update for REFEDS, co-presentation, working group meeting, and OIDC working group chairs meeting</li> </ul>
This Month	<ul> <li>Refine WG charter and workplan for 2019; coordinate with TAC</li> <li>Contribute to IAM Online – "OpenID Connect and OAuth in the R&amp;E Community"</li> </ul>
Roadblocks	Resources spread thin
Streamlining SP Onboarding WG	
This Month	Complete. see final report here http://doi.org/10.26869/TI.98.1
Attributes for Collaboration and Federation WG	
	Complete. see final report here http://doi.org/10.26869/TI.101.1
Deployment Profile Working Group	
	<ul> <li>Presented nearly completed work at TechEx in front of a much more crowded than expected room. Got some good additional community feedback</li> <li>Finishing some final edits to our revised SAML2int</li> <li>Plan to pass the revised SAML2int to Kantara soon for community review and ratification.</li> <li>Recommended a work item to REFEDs to standardize logo requirements across federations for logos in metadata</li> <li>Working on final report and then to share with InCommon TAC and Steering soon (targeted for community consultation in January 2019); report includes recommendations for follow-on work to create an R&amp;E-specific deployment profile. https://spaces.at.internet2.edu/x/tw6MBw</li> </ul>
