Federated Use Cases

This area is to be used to collect use cases which are specific to federation.

- We expect some federated use cases to come out of the InCommon Library Services working group.
- OCLC's problem statement
- What are some examples of University hosted SPs within InCommon or other federations that are tackling this issue?
- VOs
- The canonical IEEEuse case
- OXID announcement
- CA Big - federated groups
- Sharepoint services
- COmanage
- SurfNET
- Carnegie Mellon's Federated Student System
