Task Forces

Task Force Status
At the face-to-face meeting in College Station, TX, in Feb 2009, the task forces were put on hold.

At the face-to-face meeting in Lincoln, NE, in summer 2008, the performance working group decided to organize into smaller task forces around selected topics.

This page is an entry point to work underway in each of the task forces.

- BCP (Campus and RONs Requirements/Best Practices) WIKI PAGE
- Layer 1 / Optical Monitoring (no wiki page yet)
- Access Requirements (no wiki page yet)

Task Force Info Table for Reference

Task Force	Chair	Issues
Campus and RONs Requirements /Best Practices	Ken Lindahl, UC Berkeley, lindahl AT berkeley DOT edu	Packaging, configuration mgmt, best practices, recommendations for what measurements and what data are most useful.
Layer 1 / Optical Monitoring	Dan Magorian, Mid-Atlantic Crossroads (MAX) , magorian AT maxgigapop DOT net	- How to gather statistics at Layer 1? - How do DWDM systems report in to the framework? - Development of SHIM device drivers for different hardware platforms.
Access Requirements	Jeff Boote, Carla Hunt, carla AT mcnc DOT org	What kinds of access policies (SAML assertions) make sense for the community at large?
