Social Media

Social Media -

"Social media are primarily Internet- and mobile-based tools for sharing and discussing information among human beings.1 The term most often
refers to activities that integrate technology, telecommunications and social interaction, and the construction of words, pictures, videos and audio.
This interaction, and the manner in which information is presented, depends on the varied perspectives and "building" of shared meaning among
communities, as people share their stories and experiences. Businesses also refer to social media as user-generated content (UGC) or consumergenerated media (CGM)." c/o Wikipedia
