

# ACAMP2010 -DefineStandardAPIforGroups

Wiki space for work on 2010 Advance CAMP Action Item:

## Define a Standard API for Groups

Note: This action item is being worked on as part of the [Jasig FIFER Community of Practice](#). See [notes](#)

	Overview
<b>Deliverables /Goals</b>	
<b>Group Members</b>	Potential Collaborators: Eric Westfall (Kuali/Indiana U), Ray Davis (SAKAI/UC Berkeley), Chris Hyzer (Internet2/U Penn), Tom Dopirak (CMU), Rob Carter (Duke), Dan Seibert (UCSD/Kuali), Benn Oshrin (Internet2)
<b>Status</b>	At the Mace-Directories working group session at the Fall 2010 Internet2 meeting it was decided to revitalize the <a href="#">eduMember</a> specification. The result may prove to be the foundation for a very simple standard API for groups.
