CAMP Access Management

Welcome to CAMP: Practical Building Blocks for Access Management

This site provides background material for CAMP attendees to refer to throughout the workshop. To get the most out of the meeting, the program committee recommends that you get familiar with this content before arriving. As a side note, items may be updated or added before or during the meeting to reflect new information and work.

The Program Committee site is now located here.

Use Cases and Solution Patterns

Use Cases

- Use Cases Organized by Area of Interest
