

Grouper Daemon - job history chart

Wiki Home	Grouper Release Announcements	Grouper Guides	Grouper Deployment Guide	Community Contributions	Internal Developer Resources
---------------------------	---	--------------------------------	--	---	--

Starting with Grouper v2.5, the MiscellaneousAll daemon jobs page has a new link "job history chart."
This will display a Gantt style graph of jobs that have executed within a given timeframe

Job history chart

Date Range: From To

Minimum seconds execution time filter

Job names like filter (use % wildcard and comma separator)
