

Grouper database

Wiki Home	Grouper Release Announcements	Grouper Guides	Grouper Deployment Guide	Community Contributions	Internal Developer Resources
---------------------------	---	--------------------------------	--	---	--

Grouper needs a database for each environment (dev/test/prod). This database is shared by all the Grouper services in that environment (WS/UI/daemon/SCIM/GSH). When picking your database:

1. [Postgres](#) is recommended
2. Oracle can also be used
3. MySQL can be used but only for small deployments
 - a. It has performance issues in large deployments
4. HSQL is not supported anymore
