

Midwest Collaboration

In this space you'll find the latest news and information about Internet2's Health Sciences Midwest Regional Collaboration, a group working to foster health science networking collaboration between four upper midwest states: Illinois, Michigan, Minnesota and Wisconsin.

Community call notes and presentations, working documents, recent updates and more will be posted on the right as they become available. To search or browse this space, use the search box in the far right column.

Need more information? Have questions or ideas? Let us know at msullivan@internet2.edu.

For more general information on the Health Science Initiative, see Internet2's [Health Sciences Initiative home page](#).

Advanced Networking and Health IT Case Studies

A table summarizes case studies that we want to document. You can download the latest version [here](#). You can edit this document and then send the revised file to msullivan@internet2.edu to update this page.
