

Next IAM Online - Group Provisioning

The next IAM Online features presentations on groups provisioning for federated educational applications. Here's the announcement, including the date, time, and speakers.

IAM Online - Wednesday, February 9, 2011
3 p.m. EST / 2 p.m. CST / 1 p.m. MST / Noon PST
www.incommon.org/iamonline

Group Provisioning for Federated Educational Applications

Looking at provisioning Google Apps or other off-site services with your campus identity system? This IAM Online will feature two speakers on the topic of group provisioning for higher education.

Nathan Dors will share work being done at the University of Washington in group provisioning, particularly as it relates to syncing campus groups with Google Apps for Education. Tom Zeller from the University of Memphis will discuss ongoing activity in federated provisioning, specifically within the area of SPML (Service Provisioning Markup Language) standards.

Speakers

Nathan Dors, Manager, Identity and Access Management, University of Washington
Tom Zeller, Internet2 and Emerging Technology Developer, University of Memphis

Host

Tom Barton, Senior Director for IT Architecture, Integration & CISO, University of Chicago

Connecting

We use Adobe Connect for slide sharing and audio: <http://internet2.acrobat.com/iam-online>. For more details, see www.incommon.org/iamonline.

ABOUT IAM Online

IAM Online is a monthly online education series including essentials of federated identity management, hot topics from the EDUCAUSE Identity and Access Management Working Group, and emerging topics in IAM. Experts provide overviews, answer questions and lead discussions. IAM is brought to you by InCommon in cooperation with Internet2 and the EDUCAUSE Identity and Access Management Working Group.
