Joining InCommon: The POP is Your Friend

Are you looking to join InCommon, or have you recently joined but still need to get your policy and technical house in order? Join this IAM Online to learn how you can use the InCommon Participant Operating Practices (POP) document to guide you as you set the wheels in motion toward federated identity management.

Jacob Farmer will share his popular presentation from InCommon Day CAMPs, where he helps new and almost-new participants use the POP as their guide to reviewing their identity management practices in preparation for federating InCommon.

Speaker

Jacob Farmer, Lead Systems Analyst/Programmer, Identity Management Systems, Indiana University
