Provisioning

Provisioning

DATE and TIME: 26-May-2011 3:30pm

CONVENER: Tom Zeller and Todd Piket

SCRIBE: Tom Zeller

# of ATTENDEES:

MAIN ISSUES DISCUSSED

- definition of provisioning (accounts, chairs, phones, access)
- as [ACAMPScribe:part of] workflow and/or externally authentication managers
- deprovisioning
- on-prem, federations, clouds
- synchronization of identity attributes [ACAMPScribe:and groups]
- get information where it needs to be
- Message Bus, chagelogs
- standards
- unprovisioning - just use REST :-)

ACTIVITIES GOING FORWARD / NEXT STEPS

- educause idm list for collaboration
- provision@internet2.edu (development)
- who is rolling your own ? UBC, Yale, Texas A&M, ?
-
