Register now for the Shibboleth Workshop Series, July 21-22, 2011, in Milwaukee, Wisconsin.

Have you decided to deploy a web single sign-on (SSO) system and leverage it to access resources and contracted services through InCommon? Do you need training on installation and support?

Consider attending one or both:

- Shibboleth Identity Provider Workshop on July 21, 2011
- Shibboleth Service Provider Workshop on July 22, 2011

The InCommon Shibboleth Identity and Service Provider Workshops will provide attendees with technical installation and configuration experience with Shibboleth Single Sign-on and Federating Software, version 2.

Developed for organizations new to Shibboleth and those with existing implementations interested in upgrading to the v2 release, the workshops will offer attendees the chance to:

• Install either a prototype Shibboleth identity or service provider in a virtual machine environment.
• Hear tips for configuring and running the software in production.
• Learn about integration with LDAP directories and selected packages.

AUDIENCE includes higher education and partner organization representatives with knowledge of identity management concepts and related implementation experience. Organizations are encouraged to send one or two attendees who best represent the following functions:

• System install, integration, and ongoing support staff
• Campus technology architects

REGISTER SOON (http://www.incommon.org/educate/shibboleth/registration.html) to reserve a seat. Participation is limited to maintain program quality. For those staying overnight, there is a list of hotels on the workshop website (www.incommon.org/educate/shibboleth). NOTE: There is a separate registration process and fee for each workshop (IdP and SP). If you wish to attend both days, be sure to register for each.

RESOURCES: To learn more about Shibboleth, see shibboleth.internet2.edu. More information on federated identity can be found on the InCommon Federation site: www.incommon.org.

THIS SHIBBOLETH WORKSHOP SERIES event is sponsored by InCommon, Internet2, the University of Wisconsin-Milwaukee, the University of Wisconsin-Madison, and WiscNet.
