Agenda

1. Review of caching and external attribute binding to models (CO-171)
2. Review of nested COUs (CO-172)
3. Review data model changes (CO-178)
    a. CMP vs CO Attributes: stick to current design (CMP attributes define federated attributes, CO attributes are more ad hoc)
4. REST PUT (CO-119)
5. Reconciliation (CO-186) (identify workflow)
6. Discussion of CO-180 (Enrollment Workflow Model and Controller Updates) and CO-179 (Enrollment Workflow REST API Revisions)
7. Org Identity per-CO vs per-CMP
    a. Need to move to this model, possibly making it optional
8. Discussion of UI
9. Documentation Style Guide
