COmanage Call 3-Feb-2012

Minutes: COmanage-TAC call 3-Feb-2012

Attending

Heather Flanagan, Internet2 (Chair)
Ken Klingenstein, Internet2
Benn Oshrin, Internet2
Keith Hazelton, University of Wisconsin - Madison
Scott Koranda, U. Wisconsin - Milwaukee (LIGO)
Steve Olshansky, Internet2
Emily Eisbruch, Internet2, scribe

New Action Items

[AI] (Keith) will check if there are Project Bamboo meetings in Sept 2012 that should be avoided in scheduling the VAMP.

[AI] (Keith) will find out if Bamboo has international sister VOs that we should consider inviting to the VAMP.

[AI] (Heather) will do the date analysis for scheduling the VAMP and propose a night followed by two days.

[AI] (Heather) will check the VAMP info for errors.

Carry Over Action Items

[AI] (Heather) will set up meetings with IRODS/iPlant/Internet2 in February

[AI] (Steven) will develop a one-page write-up on attribute aggregation.

DISCUSSION

Upcoming Meetings

VAMP - Sept 2012
I2SMM - April 2012
TERENA - May 2012
IDTRUST - March 2012

VAMP

- Ken has asked Nili to take the VAMP abstract and turn it into a proposal
- VAMP was mentioned by Scott Brim on the RAC call
- The Dutch have stepped forward w support for VAMP
- Likely VAMP will be in Sept. 2012 in Utrecth or Amsterdam
- looking at dates now

[AI] (Heather) will do the date analysis for scheduling the VAMP and propose a night followed by two days.

- Ken recently talked about VAMP with a group from the EU that was in DC
- Ken video-conferenced into the meeting
- there was a representative from Finish supercomputing center
- 2 people from Max Planck institute which does a lot of linguistics
- Max Planck Institute were early Shib adopters
- This EU group received a major grant from EU to categorize and organize all EU Science data
- We bonded on pain of attribute release and codes of conduct
- This group is interested in data access, scholarly identity, profiles, and matchmaking of data to researcher interest
- They do not do data storage, but they are excited about the IRODS work
- They want to participate in VAMP

- Possible linguistic interaction with Project Bamboo?

Keith, will check regarding dates and relationships:

[AI] (Keith) will check if there are Project Bamboo meetings in Sept 2012 that should be avoided in scheduling the VAMP.

[AI] (Keith) will find out if Bamboo has international sister VOs that we should consider inviting to the VAMP.

Feel free to circulate the VAMP info.

[AI] (Heather) will check the VAMP info for errors.

Bamboo Doc on Identity Management in the Ecosystem

https://wiki.projectbamboo.org/display/BTECH/2011/06/20/Identity+and+Access+Management+in+the+Bamboo+Ecosystem

- Ken likes document on "Bamboo Identity Management in the Ecosystem" and has been circulating it
- Especially helpful is the categorization of roles, groups and privileges,
- Wonder if LIGO or other VOs could produce something similar

Internet2 2012 SMM

- Some issues related to SMM are in flux.
- Hope things will get resolved soon
- Heather will submit one or more track sessions related to COmanage and SURFConext work
- There will be a COmanage WG session

IDtrust

- Details on the 2012 NIST/NSTIC IDtrust meeting are at

http://www.nist.gov/itl/csd/ct/nstic_idtrust-2012.cfm

There will be side meetings around IDtrust, including:

- the day before IDtrust there will be a one day invite-only Attribute WG that comes out of the Mapping the identity Ecosystem Workshop in Dec. 2011 in Amsterdam

  and

- following IDTrust there will be an open OIX Trust Elevation Meeting

Terena

Terena meeting will be in Iceland in Mayhttps://tnc2012.terena.org/

NSF Science Highlight

- Heather reported that work is finishing on the NSF Science Highlight diagram
- this is the first such highlight out of OCI

Internationalization of R&S Bundle

- Internationalizing the R&S bundle would be a good thing to do
- if we want to make the R&S bundle international
- there are 2 attributes we need that are not currently in the bundle or in eduperson
  -   home organization
       and
     - preferred language

Q: How do we get those attributes promoted?

A: Keith: do the promotion thru InCommon.
- the InCommon TAC should bless it.
- then it could be publicized via InCommon
- the Kantara Attribute Management discussion group is also a good place to bring this

Keith will continue the preferred language (R&S attributes) with whomever is interested
to figure out a strategy and get this on the US radar

Next Call: Friday, Feb. 17 at 2pm ET
