

# SOA

SOA (see [Paul Hill's background paper on SOA](#))

SOA Tools - Strategy and best practices.

- Best-of-breed, complete suites, open source?
- Which strategy are you pursuing and why?

SOA Governance

Version Management, SLAs, Data Management (what happens when interfaces change)

[SOA models--What SOA is and is not](#)

SOA collaboration on campus (maybe can be combined with Governance)

SOA for techies\* REST vs SOAP (when to use one or the other or both?)

- Use of ATOM for web service data syndication
- A different approach to SOA when introducing the concept of ROA

Organizational buy in on SOA (how does this happen?)

SOA Best Practices
