SOA Survey

The Enterprise, Business, and Technical Architects (ITANA) Educause constituent group asks for your participation in a short survey on the state of SOA in Higher Education.

We expect this short survey to take 10-15 minutes to complete. Multiple responses from the same institution are ok. Please feel free to skip any question you don't wish to answer or don't have time for.

An analysis of survey results will be shared at the Educause 2012 national conference and through the ITANA web site, http://itana.org/

Thank you for your time!
