UI Prototype

The following are screenshots from a prototype Groups Service UI being worked on at the University of Washington as of April 2012.

This is not a final production UI.

General Info Screen:

The screenshot shows a web browser window displaying the "Groups Service (Test system)" interface. The browser's address bar shows the URL: https://urizen4.cac.washington.edu/test_ws/v2/#g:u_fox_group-dev. The page header includes the University of Washington logo, the title "Groups Service (Test system)", and user information "joeuser" and "Help". A search bar is located in the top right corner with the text "Search by name" and "Adv. search". Below the header, there is a sidebar on the left titled "My Groups" containing a list of group names: u_fox_group-dev, u_fox_spud32_sub, u_fox_spud32_sub_joes, u_fox_spud_30_joe, u_joeuser_spud2, u_joeuser_spud2_tot, u_joeuser_tegrity, u_joeuser_tegrity_chris, u_joeuser_tegrity_course1-instructors, u_joeuser_tegrity_course1-students, and u_joeuser_tegrity_mygroup. The main content area displays the "General Information" tab for the group "u_fox_group-dev". The group details include: Id (u_fox_group-dev), Name (group developers and testers), Description (group developers and testers), and Contact (fox). Below this, the "Membership properties" section shows Classification (not classified). The "Applications" section shows Authorized senders (No authorized senders) and Exchange email (inactive). The "Access control" section shows Administrators (fox Jim Fox) and Membership viewers (no viewer restrictions). The footer of the page includes the University of Washington logo, the text "UNIVERSITY of WASHINGTON", and links for "CONTACT US", "PRIVACY", and "TERMS". On the right side of the footer, it says "UW Information Technology".
