Agenda July 11

Status update

1. We now have 14 respondents. Could you please take a look at the results so far: https://spaces.at.internet2.edu/display/itana/Survey+respondents
2. Tabulation in progress. The transcriptions have not been double checked for accuracy.
3. SOA capabilities of products: Rich, were you able to interview Linda Feng?
4. In some cases I've started summing up results: https://spaces.at.internet2.edu/display/itana/SOA+maturity Is this helpful? Or is this misleading because the numbers are so small?
5. As per an earlier email: our Educause presentation proposal was not accepted. But we still need to think about repurposing the results of the survey

Next steps:

Additional impressions for the themes section

https://spaces.at.internet2.edu/display/itana/Survey+Themes

Ideas for the f-2-f:

1. 10 minute overview of survey?
2. Round-table discussion (who want to participate?)
3. Themes or case studies?

Other ideas…
