

Performance Nodes

DYNES sites are eligible to receive one or more Dell R310 (1GE interface) or Dell R610 (10GE interface) servers to be used as pS Performance Toolkit systems. The psPerformance Toolkit documentation can be found [here](#). Installation instructions for the Toolkit can be found [here](#). **Late note!** Dell has discontinued the R310 and R610 platforms. Details about a replacement platform will be listed here when available.
