Box.com Screen2Screen

At 2pm EST on 1/30/13 ITANA hosted a Screen2Screen (via Adobe Connect) on the topic of Net+'s offering of Box.com.

The S2S lasted an hour and consisted of a panel of people who gave some short presentations and answered questions. Roughly 50 participants were in the S2S.

The panel consisted of:

- Jim Phelps, Enterprise Architect at UW-Madison and Chair of ITANA (moderator)
- Shlomo Balass, Services Development Manager, Computing Services at Carnegie Mellon University
- Glenn E. Donaldson, Senior Application Architect, OCIO Enterprise Applications/Architecture at The Ohio State University
- Andrew Keating, Program Manager for NET+ services at Internet2
- Bill Wrobleski , Director, Infrastructure Projects. Project Owner of Michigan's M+Box and M+Google projects.

Kris Steinhoff, tech lead for Michigan's Box implementation and Chris Eagle, Enterprise Architect at Michigan helped organize and answer questions before the S2S but did not participate on the panel.

Here are some links to the resources from the meeting

- Q & A that was submitted before the meeting
- Follow up resources and information from Andrew Keating at Internet2's Net+
- The Michigan Storage Solutions Summary Chart that shows how Box fits into their overall personal storage universe.
