CIC + Friends InCommon Silver documentation workgroup

This group originated as a CIC group but is now open to all InCommon member institutions. The purpose is to share documentation as we develop it in conjunction with our institutions' InCommon Assurance initiatives. It is hoped this can save effort by sharing examples that may be used by others to avoid having to develop from scratch. We are including any and all documents that may be needed for our Assurance initiatives, such as gap analyses, policy statements, management assertions and supporting documents, project documents, etc.

We meet via conference call on the third Friday of every month from 3:00 - 4:00pm Eastern time. Watch the InCommon Assurance email list for monthly agendas and call-in information. Please join us.
