

CFL-WG Meeting Notes 2013-06-20

Participants

- Brett Bieber (UNL)
- Benn Oshrin (SCG)
- Jeff Capehart (UFI)
- Ann West (I2/InCommon)
- Mike Grady (Unicon)

Notes

1. Discussion of what would be considered successful outcome of working group
 - a. Proof of Concept
 - b. Some indication that approval from audit would be likely, perhaps by leveraging internal audit participants' institutions
 - c. Patterns for deployment
2. Discussion of "step down assurance", whereby assurance qualifiers are dropped as IAP-specific failed authentication thresholds are reached
3. Concerns about using UDP to transmit logs – can TCP used instead?
4. Similarities to University of Chicago "Monitor and Remediate" approach for AD
5. Impact of 72 hour window for calculating compliance
6. Brett is interested in a POC by August 1

Action Items

1. Set up a table of contents to facilitate design contributions for each component
2. schedule another ad hoc call for July before considering regularly scheduled calls
