

CManage Dev Call 17-Apr-09

CManage-Dev Call 17-Apr-09

Attending

Heather Flanagan, Stanford (Chair)
Tom Barton, U. Chicago
RL Bob Morgan, U. Washington
Chris Hubing, Penn State
IJ Kim, Internet2
George Brett, Internet2
Steve Olshansky, Internet2
Emily Eisbruch, Internet2 (scribe)

New Action Items

[AI] (IJ) will email Digant and introduce himself as a resource for Sympa issues.
[AI] (Bob) will provide an intro to the Sympa developers for Digant.
[AI] (SteveO) will post the revised CManage info sheet on the CManage website and Emily will send it to out to the CManage-dev list.
[AI] (All) Inform Bob know if you are interested in helping with a CManage demo for the Burton Group Catalyst Conference <http://catalyst.burtongroup.com/>

Carry Over Action Items

[AI] (Ken) will send an outline to Steven, Tom and Digant as a basis for talking to NSF about collaboration with HUBzero.
[AI] (Heather) will talk with Gary Schwartz (RPI/Bedework) at the I2 SMM. (Steven or Michael) will provide an introduction.
[AI] (Ken) will draft an email to interested parties who could be helpful in CManage testing.
[AI] (Steven and Jim) will flesh out the existing developer domestication guidelines in the wiki.
[AI] (Digant) will create a simple HTML mockup of the Beau Jest interface and have it available at the Spring I2MM.
[AI] (Ken) will reach out to potential international developers to participate in early alpha testing
[AI] (Ken) will ask his contact at the Norwegian Federation about Foodle.
[AI] (Bob) will provide to the list background on user stories.
[AI] (Ken) will talk with Lois about Fluid involvement in improving the CManage GUI, scheduling it for later in the year.
[AI] (Chris) will contact Atlassian and try to obtain a timetable for Jira domestication. (Ken) will provide some wording for this communication with Atlassian.
[AI] (Bob) will send links to the group on the invitation problem.
[AI] (Ken) will send a note to his contact at OOI to explore their level interest (after the CManage alpha is ready).
[AI] (Ken) will ping Frank Siebenlist from Argonne National Laboratory, who is interested in CManage.
[AI] (Digant) will create CManage video #2, when the improved Collabmin GUI is available.

Discussion

Face to Face CManage BoF Session at SMM -- Reminder

Internet2 Spring Member Meeting
Arlington, VA
CManage BoF
Monday 27-Apr-09
Salon B

Release Status

Chris reported that the base Confluence Install version for CManage was packaged and sent to Digant on 16-Apr-09.
The CO-Confluence package (including the authenticator for Shib and the license) is almost ready. Chris is just solving an issue with the hash value.

Digant would like help with certain aspects of Sympa for the domestication process.

[AI] (IJ) will email Digant and introduce himself as a resource for Sympa issues.

Bob noted that Sympa developers themselves are also a good resource.

[AI] (Bob) will provide an intro to the Sympa developers for Digant.

Marketing Materials for CManage

CManage marketing materials are coming along well.
Ken showed the updated CManage website to George Strawn at NSF and it was well received. <http://middleware.internet2.edu/co/>
[AI] (SteveO) will post the revised CManage info sheet on the CManage website and Emily will send it to out to the CManage-dev list.

Burton Group Catalyst Conference

Burton Group has a Catalyst Conference every year in July. Industry-wide demos are featured, and many demos are typically focused on federations.
Internet2 has participated in the past. This could be a good opportunity to showcase CManage.
<http://www.catalyst.burtongroup.com/Na09/>
Such a CManage demo for the Catalyst Conference could be branded along with InCommon, or with both InCommon and Internet2. It could take some time to develop an attention-catching, compelling demo.
[AI] (All) Inform Bob know if you are interested in helping with a CManage demo for the Burton Group Catalyst Conference <http://catalyst.burtongroup.com/>

Scholarship Scenarios

TomB mentioned his discussions with Chad Kainz regarding interest in COmanage for U. Chicago and also from the point of view of scholarship scenarios being considered by the Bamboo Project. Chad is attending the Bamboo Project Workshop at Brown April 16-18. It's hoped that the concept of a scholarship scenario for COmanage will get sharpened and some concrete requirements will emerge.

Next Meeting:

Internet2 Spring Member Meeting
Arlington, VA
COmanage BoF
Monday 27-Apr-09
Salon B
