

# Excel Macro

Excel Macro reads from attached excel file.

```
{excel:file=^filename.xls}
```

- The macro does **not** handle fancy formatting well. So worksheets should be simple.
- For more information about this macro go [here](#)
- Currently the macro does not convert .xlsx (new excel type) files.
- **Note;** you can sort columns by clicking on heading reload the page to reset to the excel file state.

| Number | Date   | Person          | New Column   |
|--------|--------|-----------------|--------------|
| 1      | 6-Mar  | Doe, Jane       | abcdefg      |
| 2      | 7-Mar  | Smith, Paul     | ghijkellksad |
| 3      | 8-Mar  | Jones, Alan     | ghijkellksad |
| 4      | 9-Mar  | Mitchell, Peter | ghijkellksad |
| 5      | 10-Mar | Brown, Ada      | ghijkellksad |
| 6      | 11-Mar | Newman, Joan    | ghijkellksad |
| 7      | 12-Mar | Cartwright, Hal | ghijkellksad |
| 8      | 13-Mar | Falk, Ed        | ghijkellksad |
| 9      | 14-Mar | Wright, Jane    | ghijkellksad |
| 10     | 15-Mar | Smith, James    | ghijkellksad |
| 11     | 16-Mar | Roberts, Sarah  | ghijkellksad |
| 12     | 17-Mar | Haverty, Sean   | ghijkellksad |
| 13     | 6-Apr  | Neuman, Albert  | ghijkellksad |

| Sheet 2 |       |
|---------|-------|
| Number  | Name  |
| 1       | Brown |
| 2       | Brett |
| 3       | Jones |
| 4       | Frye  |
| 5       | Smith |
| 6       | Smith |
| 7       | Smith |
| 8       | Smith |
| 9       | Smith |
| 10      | Smith |
| 11      | Smith |
| 12      | Smith |
| 13      | Smith |
| 14      | Smith |
| 15      | Smith |
| 16      | Smith |
