

# Architecture Principles

The Open Group's list of 20 sample architecture principles starts a few screens down at the following URL:

A recent and very concise list comes from NIH:

<http://enterprisearchitecture.nih.gov/ArchLib/Guide/EnterprisePrinciples.htm>

The Wisconsin (state) Enterprise Architecture Team principles are found through links on the following page:

Note that this is a case where the principles were carefully crafted and then became mere "shelfware"

The US Department of Education published architectural principles back in 1999:
