

# Action Items from Advanced CAMP

## Action Items from the final session of 2009 ACAMP

- Finish access management glossary and create ontology or other representation in the MACE-pacman space.
- **Update:** Glossary Complete. See the MACE-pacman Wiki at
  - <https://spaces.at.internet2.edu/display/macepacman/MACE-pacman-glossary>

*TomD, Leif, Trent, MichaelP, Paul Hill, RayD*

---

- Translation among SAKAI, PerMIT, pacman, Kuali, Spring?, ... terms. Leader (Ray) to lead the fleshing out of the scope of work.
- **Update:** Mostly Complete. See the MACE-pacman Wiki at
  - <https://spaces.at.internet2.edu/display/macepacman/MACE-pacman+comparative+taxonomy>

*RayD, Eric & Jens -> other K-folk, ScottB -> Spring-folk, ...*

---

- KIM - grouper service implementation PoC.
- **Update:** Completed. See [Article on Grouper Kuali Rice Integration](#)

*TomB, Eric*

---

- Collate identity service contracts. Assess them. Distill their essence.

*Benn, RLBob, Jens, TomB, Digant*

---

- CASified & shibbolized .Net, or sharepoint.
- **Update:** Completed. See Jean Marie Thia's [cas.net](#) and [Shib4Moss](#).

*Jean Marie Thia, BillT, ScottC*

---

- Document what it means to federate an application.

*RLBob, Trent?, Eric (KRA case study, maybe), ScottC, ReneeS, Digant*

---

- Bedework: COmanage discovery; clarify a service layer; clarify role structure.
- Build liaisons among CalConnect, Federated ID community, IETF?

*Gary, Trent?, Leif, kjk*

---

- Enhance development frameworks with roles, etc. Spring, Googledom, Python - django, twisted
- **Update:** Partially complete. See Roland Hedberg's [Python implementation of SAML2](#).

*AndrewP & ScottB (Spring), Leif & Roland? (django), RLBob & RayP->SAKAI-folk, SteveC (Google)*

---

- **Identity Services Clearinghouse. Collate work of this community.** Potentially host under Jasig, MACE/Internet2, Kantara?

*Jens, TomD, Trent?, RLBob*
