TOPIC	NAMES
OSS IDM	<ul style="list-style-type: none">- Jens Haeusser, U. British Columbia- Todd Piket, MSCU- Eric Pierce, U. South Florida- Randy Miotke, Colorado State U.- <u>Benn Oshrin</u>
<ul style="list-style-type: none">• put together a SW registry with functions and portability	
<ul style="list-style-type: none">• form group to talk about Sun/Oracle• <i>gap analysis</i>• <i>document stack and relevant product options...</i>	<ul style="list-style-type: none">- CampusEAI roundtables underway- MACE-Dir WG participating
<ul style="list-style-type: none">• form group to work on protocol specs	
<ul style="list-style-type: none">• look at marketing of Open Source IdM suite	
<ul style="list-style-type: none">• look at the services catalog for IAM and see how it maps to needs	
<ul style="list-style-type: none">• design/architecture documentation -- look at mechanisms by which the various components interconnect (e.g. via framework)	
<ul style="list-style-type: none">• compile best practices to be included in a reference implementation	
<ul style="list-style-type: none">• work on federated provisioning/deprovisioning	
SPs and App Developers	
<ul style="list-style-type: none">• Assemble volunteers to help with preparation of best practices documentation, including potentially Educause and OCLC, including both IdPs and SPs	
<ul style="list-style-type: none">• Work with international partners, since adoption is becoming so widespread...	
<ul style="list-style-type: none">• Scott will likely start by fleshing out the skeleton to kick this off, and reach out to specific people for contributions	<ul style="list-style-type: none">- Scott Cantor, OSU- Keith Hazelton, U. Wisc-Madison, will shepherd a potential new MACE Working Group
<ul style="list-style-type: none">• InCommon should define extensions for things like uApprove	
IdM Project/Process Mgmt.	
<ul style="list-style-type: none">• No Next Steps identified...	
Loosely affiliated populations	
<ul style="list-style-type: none">• No Next Steps identified...	
LoA	
<ul style="list-style-type: none">• LoA and identity assurance profiles are very different, and thus there needs to be distinction/clarification	

<ul style="list-style-type: none"> Assemble list of schools using LoA with e.g. NIH 	
<ul style="list-style-type: none"> Revisit requirements for Silver, with an eye toward whether they are set too high for higher-ed 	<ul style="list-style-type: none"> - Renee Shuey, Penn State - Tom Barton, U. Chicago
<ul style="list-style-type: none"> define what types of services might require higher LoA, and listing them 	
<ul style="list-style-type: none"> need risk assessment and better entropy tools 	<ul style="list-style-type: none"> - Mark Scheible, NCSU
<ul style="list-style-type: none"> develop best practices for re-credentialing, e.g. auditing challenge/response questions 	
<ul style="list-style-type: none"> define a subset of groups working on authn context to work with NIH 	
<ul style="list-style-type: none"> shepherd new groups of InC schools to collaborate on piloting InC-Silver 	
Grids & non-browser apps	
<ul style="list-style-type: none"> support Eduroam, need national scale infrastructure 	
<ul style="list-style-type: none"> make progress on DNS to IdP mappings, for DNS-based discovery 	<ul style="list-style-type: none"> - Scott Cantor, OSU - Leif Johansson, SUNET/NORDUnet
<ul style="list-style-type: none"> Follow work in IETF on SASL and federated login 	
<ul style="list-style-type: none"> encourage work on non-browser clients by creating a wiki space to host student projects... 	
<ul style="list-style-type: none"> mobile app development 	<ul style="list-style-type: none"> - Scott Cantor, OSU ++
Kuali Id. Mgmt. (KIM)	
<ul style="list-style-type: none"> Revisit defining a standard API for groups 	<ul style="list-style-type: none"> - Eric Westfall, Indiana U. - Tom Barton, U. Chicago - Ray Davis, UC-Berkeley
<ul style="list-style-type: none"> get Kuali governance to affirm direction for KIM, e.g. will it be a full IdM suite? Or be portable? Or support another group to make it portable? 	<ul style="list-style-type: none"> - Eric Westfall, Indiana U.
<ul style="list-style-type: none"> get Kuali more involved in Educause IdM CG list, for increased mutual awareness 	<ul style="list-style-type: none"> - Eric Westfall, Indiana U.
Social Networking	
<ul style="list-style-type: none"> assemble a group to think about working with Google, FaceBook, and Twitter 	<ul style="list-style-type: none"> - Scotty Logan, Stanford - Nate Klingenstein, Internet2
<ul style="list-style-type: none"> encourage more attendance at IIW (Sep 2010 in DC) to interact with Google, FaceBook, and Twitter 	<ul style="list-style-type: none"> - Scotty Logan, Stanford - Nate Klingenstein, Internet2
<ul style="list-style-type: none"> Encourage wider use of OpenSocial, and further development of relevant gadgets 	
<ul style="list-style-type: none"> collect info about how campuses are using social networking tools, internally and externally, and how they see it fitting in to their plans -- document use cases 	<ul style="list-style-type: none"> - Scotty Logan, Stanford
Groups	
<ul style="list-style-type: none"> Grouper team investigate federated external groups in CManage 	<ul style="list-style-type: none"> - Chris Hyzer, U. Penn

<ul style="list-style-type: none"> Google-Grouper connector - help with development? 	<ul style="list-style-type: none"> - <u>Steven Carmody</u> (lead), Brown - Spike Henning, U. West Florida
<ul style="list-style-type: none"> document sharing GoogleDocs with external users 	<ul style="list-style-type: none"> - Will Norris, Google, will look into this on the Google end... - <u>Steven Carmody</u>, Brown
OpenRegistry	
<ul style="list-style-type: none"> No Next Steps identified 	
IAM Governance	<ul style="list-style-type: none"> - Mark Scheible, NCSU
<ul style="list-style-type: none"> compile best practices, e.g. the way processes ought to work 	
<ul style="list-style-type: none"> case studies of working governance groups - what they have taken on and how they function 	
<ul style="list-style-type: none"> enable communication between interested users 	
<ul style="list-style-type: none"> Look at the PennState documentation 	
SPML	
<ul style="list-style-type: none"> UNC-CH is working on this, and will document on a wiki page and dedicated mailing list(s) 	<ul style="list-style-type: none"> - <u>Celeste Copeland</u>, UNC-CH (lead) - Tom Zeller, U. Memphis - Karsten Honeycutt, UNC-CH - Brad Schwoerer, U. Wisc-Madison
<ul style="list-style-type: none"> form and lead working group looking at provisioning in the broader context, including how it may fit into next-gen campus IdM system, and creating a glossary Document what is happening with provisioning in the standards bodies 	<ul style="list-style-type: none"> - Steven Carmody, Brown, will wrangle... - Jens Haeusser, U. British Columbia - Nate Klingenstein, Internet2 - <u>Tom Zeller</u>, U. Memphis (lead) - Jeremiah Adams, UC Boulder
K12	
<ul style="list-style-type: none"> raise status within InCommon work with USTrust Federations group, develop value prop for federated IDM with K12 work with testing boards to run IdP for prospective students Technical and Community Colleges 	<ul style="list-style-type: none"> - Tim Poe, MCNC
Policy Engines	
<ul style="list-style-type: none"> look into the 6 paccman use cases to show how they can be addressed with various policy engines 	<ul style="list-style-type: none"> - Keith Hazelton, U. Wisc - Madison (lead) - Leif Johansson, SUNET/NORDUnet
