

External Identities Work Group Meeting - 2015-04-23

Agenda

Yet again, agenda will be review of the (further) updated draft of the External ID Report draft at:

- https://docs.google.com/document/d/1IVDjmdCqToB9aGAIF5SVLCmVHskCqmtN7kW_jRhOWPs/edit?usp=sharing

Minutes

note, many, many comments/edits were suggested in the email list; those comments are not repeated here.

- Definitions in this document vs those in InCommon IAAF, NIST 800-63-2
 - Will edit to call out where term is the same/different definition. Or use "Aligns with", "Equivalent to".
 - Suggestion; replace Credential with **Authenticator** or Authentication Mechanism to try to avoid confusion.
- Suggest remove the phrase "BYOC" (Bring Your Own Credential); thought to be not a "real thing"

Other general edits discussed on the call that were later summarized in a post to the email list.
