

Technology Exchange Proposals Due May 21

The 2015 Technology Exchange will take place October 4-7 in Cleveland, Ohio. This meeting includes a comprehensive Trust and Identity track, with the "unconference"-style Advance CAMP (ACAMP) on Monday and Tuesday morning, then two tracks for CAMP on Tuesday afternoon and Wednesday. Lots of U.S. and International R&E organizations will participate, so it will be a great opportunity for Identity and Access Management people of all sorts to mix, enjoy, and learn from one another.

The Call for Proposals continues to be open through May 21. See the meeting website for details and guidance.

Last year's TechEx in Indianapolis was both popular and informative and we hope you can join us October 4-7 in Cleveland.
