June IAM Online Features Three Case Studies in Access Management

Three Case Studies in Access Mangement

IAM Online – Wednesday, June 10, 2015
2 pm ET / 1 pm CT / Noon MT / 11 am PT
www.incommon.org/iamonline

The June IAM Online will feature three case studies in access management. Hear about a variety of ways that organizations implement Grouper and access management: controlling access to a video streaming service in residence halls, integrating with course management, access to a student portal, and integration with Sharepoint and development of a central authorization management system.

Speakers from Oregon State University, UCLA, and GÉANT (the pan-European research and education network) will share their thoughts and experiences. Hear about business drivers the level of effort involved for deployment and integration, and future plans for these access management deployments.

Speakers:
Erica Lomax, Oregon State University
Andrew Morgan, Oregon State University
Mandeep Saini, GÉANT
Albert Wu, University of California Los Angeles (UCLA)

Moderator: Tom Barton, University of Chicago
