

# Join leading identity architects at Advance CAMP within 2015 Technology Exchange

Join leading identity architects and developers from U.S. research and higher education and international and commercial identifier at Advance CAMP (ACAMP), October 4-7, 2015, in Cleveland, Ohio. The overarching goal of ACAMP is to advance the state of the art in federation, access and security, and IAM services for both enterprises and virtual organizations.

Using an [unconference](#) format, attendees will determine the agenda and then convene highly focused, collaborative sessions with substantial time for exploration, discussion and determination of some next steps on cutting-edge topics.

This year, ACAMP will be held on Monday and Tuesday (half-day) of the Internet2 Technology Exchange. ACAMP is part of a comprehensive trust and identity schedule during the Technology Exchange:

- Sunday, October 4 - REFEDS (international federation operators)
- Monday and Tuesday (half-day), Oct. 5-6 - Advance CAMP
- Tuesday (half-day) and Wednesday, Oct. 6-7 - CAMP
